

AXCESS SERIES

Mini Cabinet Two Way Music Speakers AXCA-Series

Compact 2-way loudspeaker cabinet systems are designed for clear and pleasing reproduction of music and speech in residential and commercial applications. Attractive, rugged speaker cabinets are sealed and drivers are weather resistant. Each model has a heavy gauge painted bracket with knob type and security screw fasteners for versatile and stable attachment under eaves or balconies, to ceilings or on walls. Excellent add-ons for existing high quality foreground system or as main speakers for distributed music.

Features:

- Weather resistant drivers and cabinets.
- Residential and commercial applications.
- High quality music reproduction.
- Smooth, balanced response by design.
- Switch selected 8 ohms or 70 V line input.
- Built in 70 V line transformer.
- Adjustable heavy gauge mounting bracket.
- Stainless steel bracket screws.
- Compression terminals for fast hookup.
- Rugged protective metal grille.

Model AXCA4157(B or W)

Cost effective 15 watt 2-way speaker in a UV stable, impact resistant ABS plastic enclosure. 4" LF driver has a tough moisture resistant treated cone body with sealed rim. 1" HF driver has a mylar diaphragm. Hidden switch to select 8 ohms input or 70 V line input. Standard color: black or white. Shipping weight: 4 lbs.

IMMEDIATE SHIPMENT

Model AXCA537B

Extended frequency response, high power capability and rainproof construction. Ideal main speakers for a foreground quality music system. 40 watts peak into 8 ohms or 30 watts at 70 V line input. Use indoors or outside in less protected installations. Fiber reinforced, UV resistant, high impact ABS plastic enclosure with stainless steel fasteners and brass mounting inserts. Rainproof 5-1/4" LF driver has a filled polypropylene cone and sealed rim. Rainproof 1" HF driver has a mylar diaphragm. Recessed knob switch to select 8 ohms input or 70 V line input. Standard color: black. Shipping weight: 8 lbs.

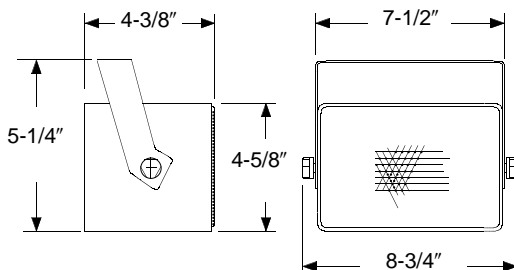

**AXCA537B
RAINPROOF CONSTRUCTION**

Installation: Attach bracket to wall or ceiling structure using safe construction practice and appropriate fasteners. Secure fasteners to frame members such as studs or joist. Do not rely on wall facing type anchors. Not recommended for salt atmosphere marine use.

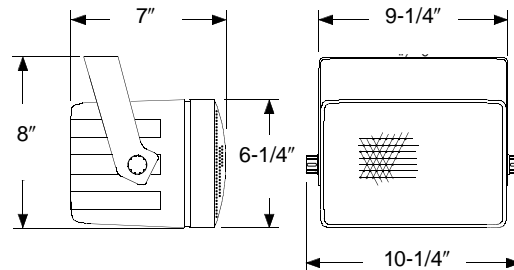

To drive these fine speaker systems refer to Fourjay AX Series Amplifiers, Catalog Sheet AX-101.
